

## Eye Level of Skokie

### Summer & Beyond Learning and Enrichment Programs 2014

Eye Level of Skokie is offering summer and beyond learning programs that will help your child excel academically all summer long. We individualize each program to fit the needs for any student. We take 'Eye Level' to a whole new level to help students progress steadily. We are offering Basic and Critical Thinking Math Programs and English and Writing Programs ages 3  $\frac{1}{2}$  years - 12<sup>th</sup> grade. Eye Level will teach your child that learning can be fun! We will also help students retain what they learned during the school year. Plus, we will be teaching new learning skills and getting students ready for the next school year.

#### Eye Level Skokie's Summer and Beyond programs will help:

- Increase Self-Esteem
- Develop More Confidence
- Increase Motivation
- Improve Study Habits
- Develop Analytical Skills
- Ensure Mastery of Concentration
- Develop Fundamental Skills: Listening, Reading, Writing & Speaking
- Foster Students' Enjoyment of Learning

Eye Level of Skokie will offer afternoon and evening classes to fit any schedule. Students will come to the center two, three, or four times a week. Students will also enjoy a fun activity party once a month. The party activities include: a possible Martial Arts Class, Art Class, and Tumble Gym all here at Eye Level of Skokie. We will also have a back to school bash for students to enjoy before school starts to reward them for a summer of hard work. All activity parties will be included in the low summer program monthly tuition prices and plans, please see the director for details.

#### About Eye Level:

- Recognized by the National Council of Teachers of Mathematics and English.
- Aligns with the Common Core standards for Illinois.
- The only program in the world to provide both Basic and Critical Thinking Skills.
- Aligned with the curriculum standards of the US Department of Education.
- Diagnostic testing to pinpoint the student's strengths and weaknesses.
- Highest quality materials that are colorful and kid-friendly.
- Low teacher to student ratios of 1:4 to 1:6.
